

The joint practice of Dr. Robbers and Dr. Cantus, which is located on Königsallee in the heart of Düsseldorf, offers modern, microinvasive surgery of the ear, nose and throat as well as plastic surgery of the face. In our view, successful treatment depends on thorough, personal consultation. After all, it is crucial to establish a relationship of trust between the doctor and the patient. In addition, medical expertise, experience and cutting-edge diagnostic equipment such as three-dimensional volume tomography are factors which contribute to successful treatment.

Areas of Expertise:

- Micro-invasive surgery on the nose and sinuses
- Minimally invasive surgery for snoring using coblation technology and specialized endoscopic treatment
- Endoscopic treatment of tear drainage disorders
- Surgical treatment of cutaneous tumors and soft tissue tumors in the face
- Cosmetic surgery of the outer nose (closed)
- Otoplasty (threads)
- Surgery on the eyelids and eyebrows, face lifting, corrections of the cheek and chin
- Treatment of wrinkles using botox and fillers
